

# StillPoint Retreats

## Bi-Weekly Symposium

Many of you who have participated in an Ongoing Weekly Retreat have asked that I make available some of the core concepts that come up regularly in the weekly retreats. The consensus was that a supporting teaching sent out several times a month would be appropriate and, above all, that I should keep the material to one page and succinct - millennial style (no footnotes!).

Faith opens us to the possibility of God.

Our inner peace draws God.

There is nothing in the world worthy of taking you away from your inner peace. Because, in truth, when life is over, the only thing you will have left, is your inner state - your relationship with God.

Peace,

Jerry
