

State of Grace Contemplation

“Our Life is God’s Gift”

His LOVE for us is that we evolve to our full potential ~
UNITY with Him¹

All of life’s circumstances for us and the world are designed to bring us to this unity. Many times, it is through great adversity that we grow in the insight and compassion we need to receive God’s presence within.

God comes to us as our life.
How we respond to our life’s situations is a reflection of how we are responding to God’s Will for us.

If, for any reason you believe that life is supposed to be
smooth,
fair,
comfortable,
illness free,
and without problems,

Then it is safe to say
that you were probably dropped off
on the wrong planet!

¹ In Unity, we have all that God is! The Father -Mother parent that wants to give the children everything that they have.
