

Commentary

Love - to know God

It is said that the mystery of Christ is revealed in every act of Love.

In fact, the activity of Christ is selfless generosity.

Jesus' path is that of "kenosis" which is self-emptying love. He taught us not only to take on the mind of God - see all as One, but to live a life of absolute giving. He became the lowest. He emptied Himself. He emptied His life for us.

The act of self-giving brings new realms into being. Every time we are in the process of self-giving, we bring a new element of Love into being. It shows what God is like in new and different ways.

Jesus' path was not necessarily doctrinal, ceremonial or dogmatic, it is not "churchianity" per se; it's give, give, give until there's nothing left but God. As Christ gave, gave, gave.

This is Jesus' religion and not necessarily a theological religion about Jesus!

Jesus introduced a new kind of path. Giving, giving, giving everything back, even giving back Life itself.

It is a very simple path. He promises the Presence of the Eternal Father all the days of your life.

It only costs everything!

Only Love, Jerry
