

The nature of creation is change. All things are in flux, however, everything balances out over time. Our experience of life resembles the swing of a pendulum. Two polarities and all possible sub polarities between birth and death, wealth and poverty, sickness and health, bad times and good. Sometimes in our spiritual life we are focused outer and sometimes inner. That is why there are two complimentary directives that guide our spiritual development.

In these two contemplations we see the "turning in" as the Inner Christ calls us to embody our LIGHT nature; and, to balance, we "turn out" to see and stimulate this LIGHT nature in all things - we are His CARETAKERS of the LIGHT.

Breathe in LIGHT  
Breathe out LOVE

## Bi-Weekly Symposium

### The Plan of Divine Love

“The plan of Divine Love is to draw back to Itself

That which It loves;

It draws everyone out of themselves and

Out of all created reality, and totally into the Uncreated.” Angela of Foligno

**The “wave” merges with the “Ocean.”**

“Love of God means love of all beings,

Because God is all,

And all is God.”

**To truly love the other is to acknowledge the Divine as present in the other no matter what the outer circumstances of that being may be. Saints and sinners share the same Inner Being. And seeing Him in all you see makes Him alive, kindling the flame of His love, in all their hearts. That’s “Loving His World” - that is being a Caretaker of the Light!**
